

EPS PRE-BREAKER

MODEL PBX2

KEEP IT CLEAN!

The integral discharge and clean up blowers reduce installation time and aid in keeping your workplace clean. The dual blower design greatly reduces the chance of a material jam in the lower discharge bin. The clean up blower can be connected to the densifier via a 3" hose or used to vacuum up the work area, and the EPS fragments and dust are all returned to the bag hopper.

EPS PRE-BREAKER

THE PERFECT COMPANION TO OUR EPS DENSIFIERS

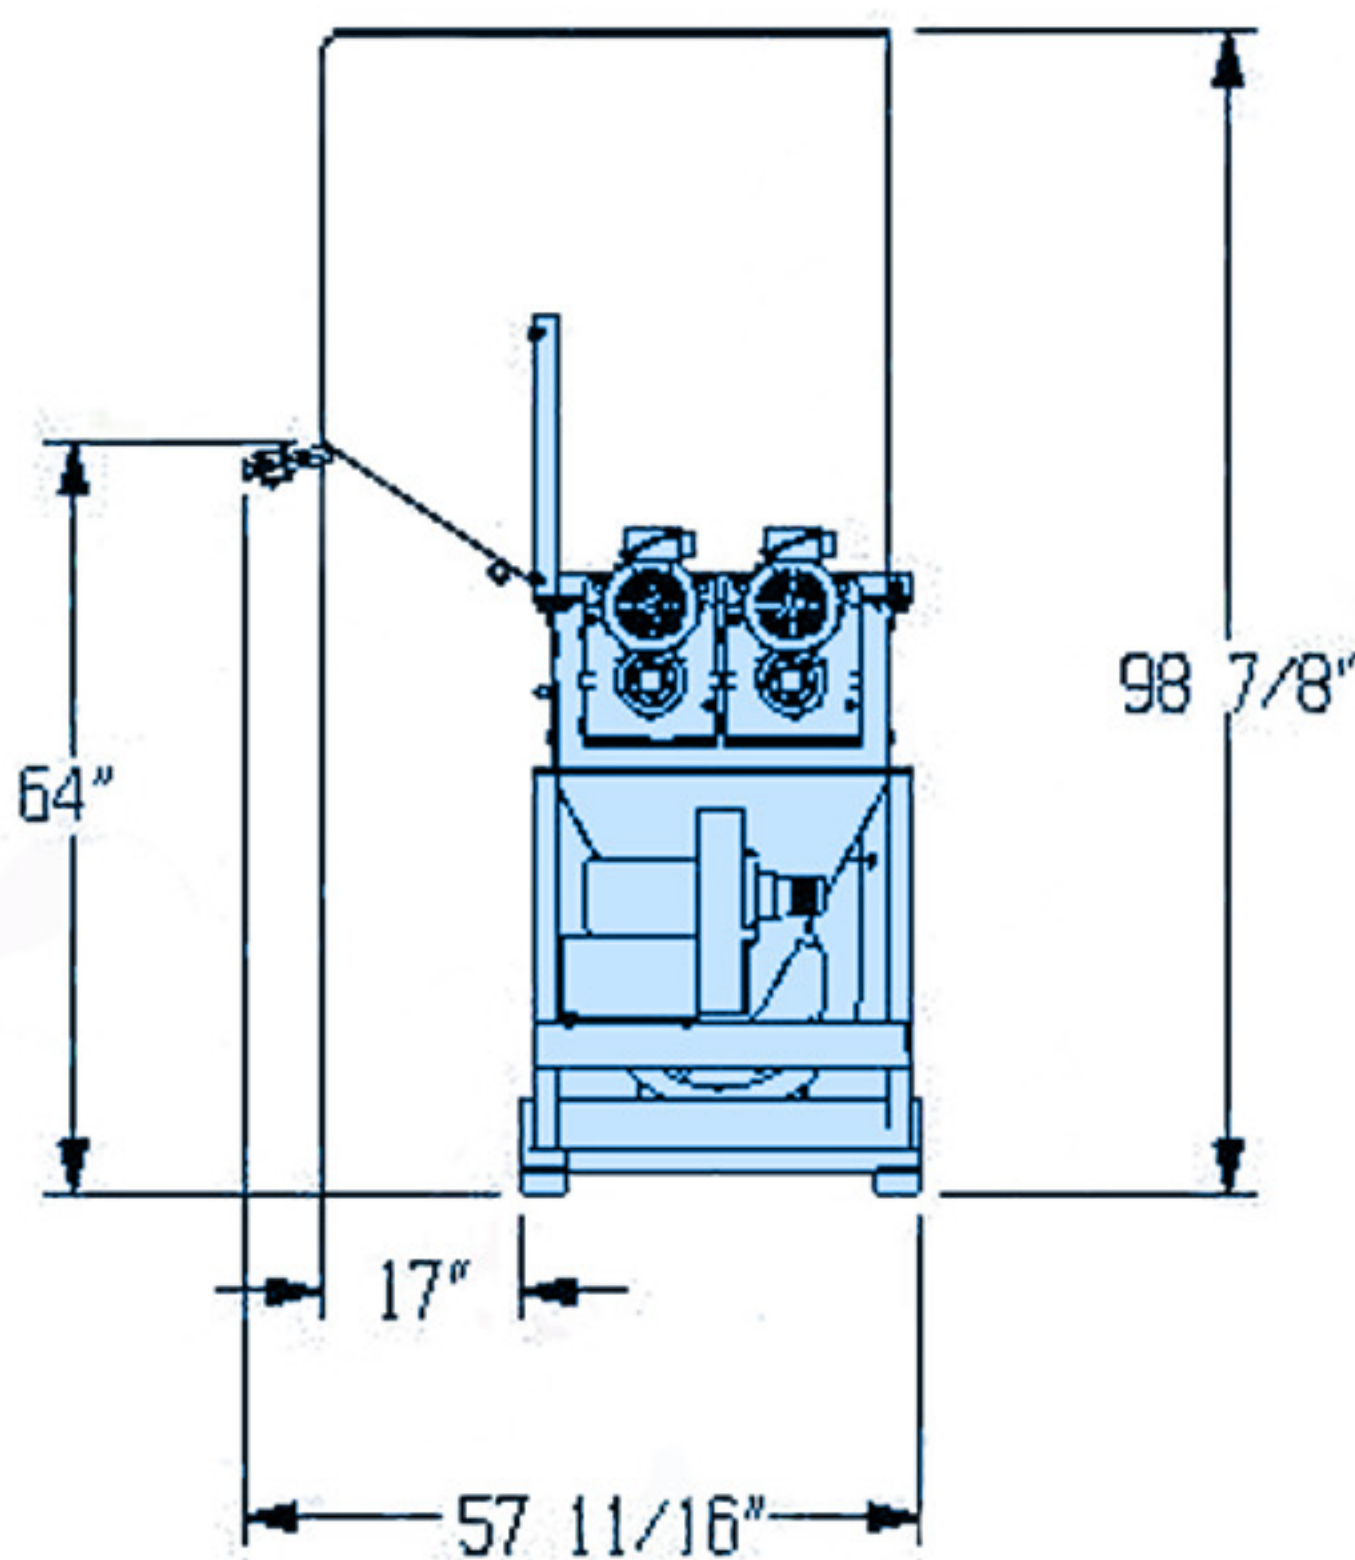

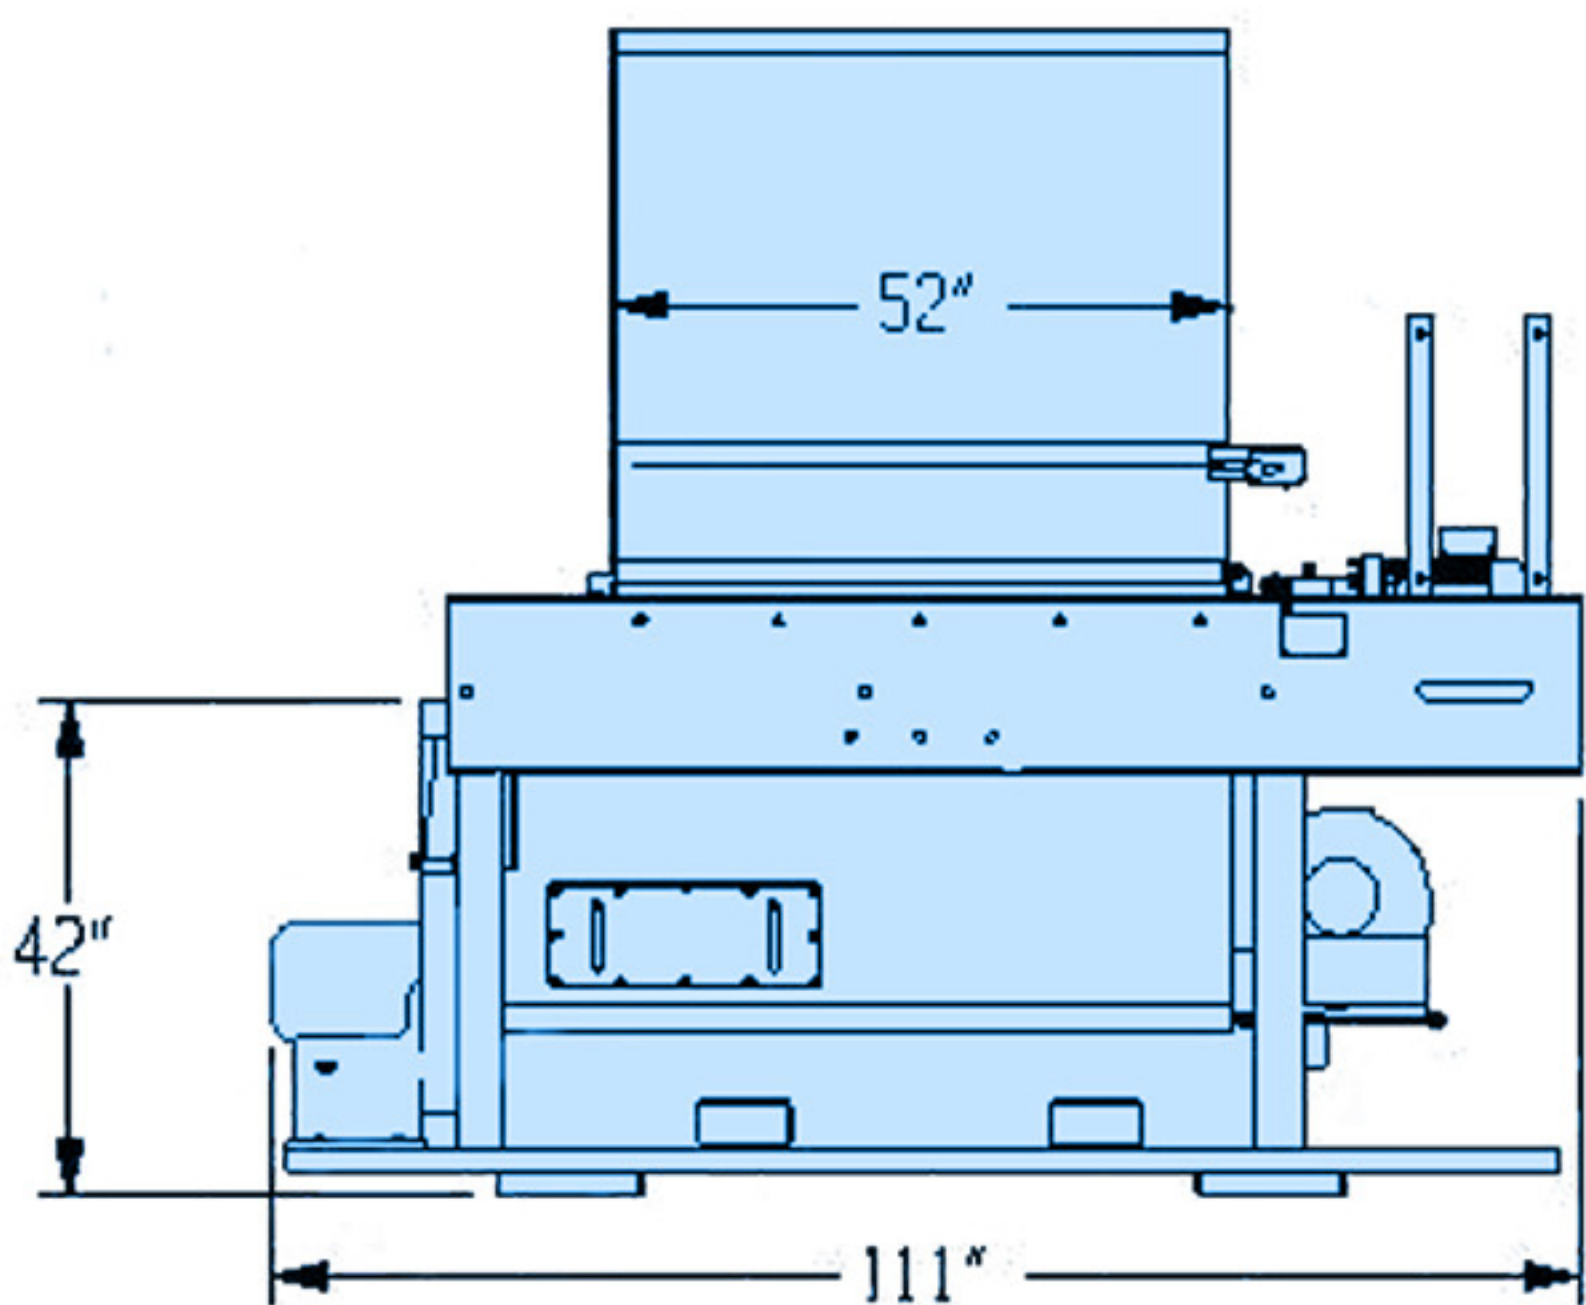

Features & Benefits

- Dual 5 HP direct drive gear motors
- Integral 7.5 HP material blowers
- Integral 3 HP cleanup blowers
- Unique spiral arbor design
- Heavy duty arbor bearings
- Low friction grate design
- Removable discharge bin window
- Accepts material up to 48" wide
- Hopper reduces airborne particles

The PBX2 features dual 5 HP arbor drives. Each arbor has our exclusive "spiral tine" design that both lowers the required torque and aids in the processing of large EPS chunks without operator intervention.
